highly pure, crystal-clear water.  
Do something good for your body and mind.

# WATER FILTERS THAT BELONG IN EVERY HOUSEHOLD

The clean water from VISION AQUA® water filters is available to you in the best quality. Drinking pleasure is guaranteed to become an experience. With our water filters, you can be sure that you always enjoy fresh, crystal-clear water.

VISION AQUA®  
household water filters

## Clean drinking water for everyday

The VISION AQUA® water filtration systems provide clean water with great taste, day after day - whether at the office, at home or on the go. We have developed our water filters to meet the needs of our customers. Our customers already love the result!

**With our water filtration systems "Made in Germany," we set new standards for purity, taste, safety, and reliability.**

Verdanium MAX

The Verdanium MAX water filter leaves nothing to be desired. It is the integrated solution for your entire kitchen and even supplies devices such as dishwashers, steamers, etc., with clean water.

Verdanium HOME

The Verdanium HOME water filter quickly becomes the centrepiece of the family kitchen. It easily fits under any sink and provides sustainable drinking water of the best quality for the whole family.

VA-Mini

With its compact design, the VA-Mini water filter makes the desire for clean water come true even in small kitchens and households of up to two people.

## Avoid plastic waste

In Germany alone, around **2,000,000 plastic bottles** are consumed every hour. The production of plastic bottles requires approximately **438,000 tons of crude oil and natural gas condensates** per year - enough to heat **356,000 single-family homes** for one year. With a water filter from VISION AQUA®, you can help significantly to reduce these amounts.

# WATER FILTERS FOR VACATIONS

Travelling in a motorhome and camper is becoming increasingly popular. It is all the more important to rely on safe drinking water here. With VISION AQUA® water filters, you no longer must worry about drinking water quality and can enjoy your vacation with peace of mind.

VISION AQUA®  
Mobile water filters

## Clean drinking water always with you

Whether on the go, in a motorhome, or on a boat, with VISION AQUA®'s mobile water filters, you can enjoy safe, clean, and delicious drinking water anywhere. You no longer must carry bottles and waste limited storage space but can open the tap and enjoy your water without any worries.

**No matter what freshwater you come across on vacation, with the help of VISION AQUA® water filters, it will be safe, crystal clear, and easy to digest.**

### Verdanium GEO

The Verdanium GEO water filter is ideal for the on-the-go and home. It can be easily installed and operated in a mobile home and a home kitchen.

### VA-Basic PLUS

The VA-Basic PLUS water filter for your motorhome, campervan, or boat. Connected to the freshwater tank, you always have clean drinking water. It can be directly connected to the 12V onboard electrical system.

### VA-Basic

With the VA-Basic water filter, you always have clean drinking water on your travels, in hotels, or vacation homes. The water filter fits easily into any travel luggage and works without electricity.

## Enjoy pure drinking pleasure anytime.

If you choose clean drinking water daily, VISION AQUA® is the right choice. For on-the-go and at home, our water filters provide the highest quality. They are easy to install and, at the same time, efficient, sustainable, and robust.

## GUARANTEED DRINKING PLEASURE

Drinking water should taste good, support the body optimally, and be clean. Which water can do that? Ideally, spring water quality water that is safe and clean. We are the specialists in this area and are happy to advise you. Let yourself be inspired by the incomparable taste of high-purity water from a VISION AQUA® water filter.

## Safe, Clean, and Delicious – Only with VISION AQUA®

Clean drinking water always and everywhere; that's precisely what we offer at VISION AQUA®. Water filter systems that produce such fine water that the desire to drink water increases. However, clean water provides many more advantages and applications than just drinking. It can be used to cook tasty dishes and enhance beverages. It can also be used in technical areas such as ironing, cleaning, rinsing, etc. It is used wherever clean and soft water is needed. We are confident that you and your family will be fascinated and impressed by VISION AQUA®.

**Moreover, with our water filter systems, you can actively contribute to environmental protection by altogether avoiding drinks in disposable bottles. With us, you always enjoy safe, clean, and delicious drinking water 365 days a year.**

## Water filters MADE IN GERMANY

VISION AQUA® chose its location in Germany for a good reason. Germany provides optimal conditions for producing our water filtration systems with qualified personnel and our own production facility on site. VISION AQUA® is synonymous with quality that many companies and consumers worldwide trust. It is no surprise that our products are also popular outside of Germany.

**Maximum quality, outstanding performance, and satisfied customers are our top priorities. Our team works hard every day to meet these demands.**
